

NORSEMAN SITEPRO M-SERIES LIGHT DUTY TENT

NORSEMAN SITEPRO M-SERIES LIGHT DUTY TENT. LIGHTWEIGHT, PORTABLE, PROTECTIVE.

Construction sites come with high demands: the work is fast-paced and continues through unfavourable conditions. Our welding and utility tents keep your crew working safely and comfortably through harsh weather. Norseman's SitePro M-Series Light Duty Tents are ultra-light and compact enough to fit in the back of a pickup truck, van, and even some cars. Fabricated with 6 oz flame resistant fabric, the SitePro M-Series tent is an economical, lightweight option that provides excellent protection from wind, rain and other harsh conditions.

Applications

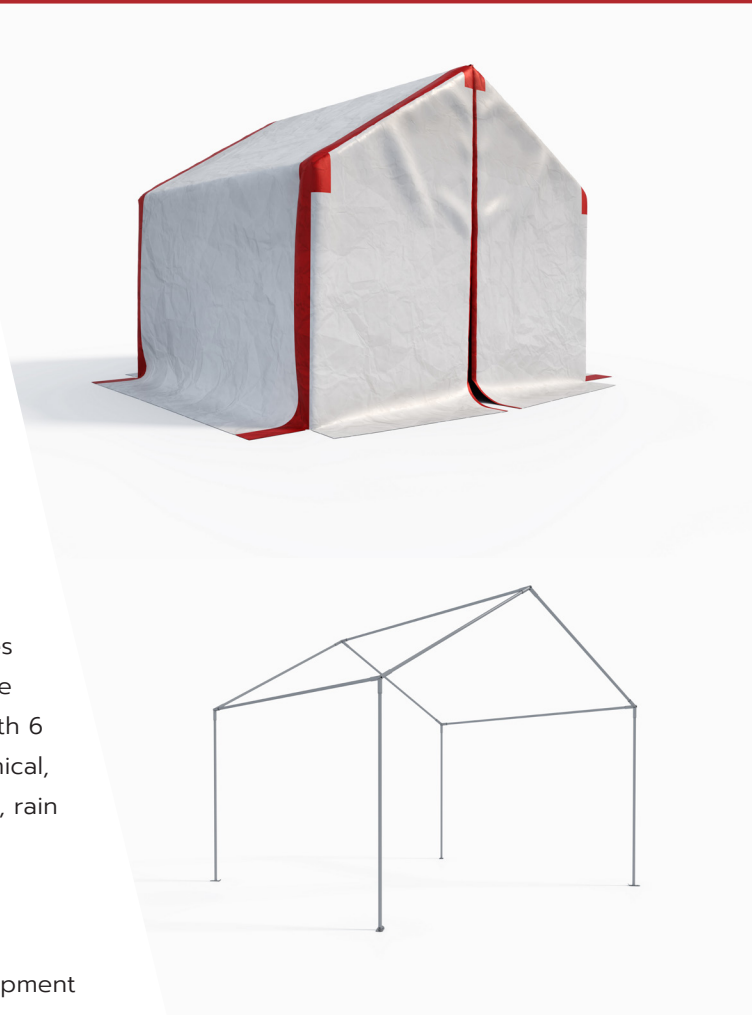

Provide a quick & easy setup shelter to protect workers & equipment from harsh weather conditions

Features

- Ultra-light and economical design.
- Compact enough to fit into the back of a pickup truck, van or even a car.
- Walls on the ends open up for ventilation of hazardous welding fumes.

Specifications

- Tent frames are constructed from galvanized steel and are rust-resistant.
- The reinforced orange strip on doors and corners for high visibility safety identification.

GEAR POINTS: Features specifically designed to ensure Norseman Gear outperforms on your next job-site.

PROTECT

Made with 6 oz. flame-resistant fabric, the SitePro M-Series tent provides a great balance of portability, protection, and value.

WITHSTAND

Made from flame-resistant fabric and galvanized steel frame for added durability when exposed to outdoor settings.

RESIST

Water, mildew, and flame resistant fabric.

FIT

The range of sizes and frames let you choose what is right for you.

DELIVER

Improved level of safety and comfort of your workspace while remaining mobile. Reinforced orange strips add strength and increased visibility.
