

NORSEMAN TANK AND SKID ENCLOSURES

GEAR POINTS: Features specifically designed to ensure Norseman Gear outperforms on your next job-site.

NORSEMAN TANK AND SKID ENCLOSURES. GIVE YOUR TEAM AND EQUIPMENT PROTECTION AGAINST THE ELEMENTS.

Drilling sites are in some of the harshest environments, and your equipment is constantly exposed to extreme weather conditions, dust, and debris. Norseman's Tank & Skid Enclosures provide shelter and protection for your equipment, keeping it performing at its best in wet, muddy, extreme conditions.

Norseman Tank and Skid Enclosures are **GEAR2PERFORM**.

 **PROTECT**

Safeguard your equipment and protect against rain, snow, dust, mud and other extreme conditions.

 **WITHSTAND**

Premium fabrics, design and build quality perform under the most challenging conditions.

 **RESIST**

Resists water, chemicals, and hydrocarbons. Fabric is also flame resistant.

 **FIT**

Easy to install. Custom fitted. It can remain installed during transport.

 **DELIVER**

Pin and Pocket system allows for quick installation without modifications to structures.

Mud Tank Enclosures

Mud and wet weather don't mix. The same goes for extreme cold. Norseman's mud enclosures protect invert or exotic muds against rainwater contamination and sub-zero temperatures. The enclosed environment also shelters your people and equipment.

Features

- Fabric and/or frames available for any sized mud tank.
- Fabric walls are independent from the roof, for greater flexibility.
- Quick and easy set up.
